344	01 04 01 02	Otorhinolaryngologist when 1 of the following interventions is performed: endoscopic examination, microbiological examination, audiometry, acoustic impedance measurement, brainstem evoked response audiometry (BERA) test, visual evoked potential (VEP) test, otoacoustic emission (OAE) test, neuro-optometric assessment, videonystagmography, videolaryngostroboscopy, the acoustic analysis of the voice field, assessment of swallowing function, rhinomanometry, surgical intervention (puncture (probing)	2738	2024-01-01
345	01 04 01 02	Otorhinolaryngologist when 1 of the following interventions is performed: endoscopic examination, microbiological examination, audiometry, acoustic impedance measurement, brainstem evoked response audiometry (BERA) test, visual evoked potential (VEP) test, otoacoustic emission (OAE) test, neuro-optometric assessment, videonystagmography, videolaryngostroboscopy, the acoustic analysis of the voice field, assessment of swallowing function, rhinomanometry, surgical intervention (puncture (probing)	3316	2024-01-01

346	01 04 01 02	Otorhinolaryngologist when 2 or more of the following interventions are performed: endoscopic examination, microbiological examination, audiometry, acoustic impedance measurement, brainstem evoked response audiometry (BERA) test, a visual evoked potential (VEP) test, otoacoustic emission (OAE) test, neuro-optometric assessment, videonystagmography, videolaryngostroboscopy, the acoustic analysis of the voice field, assessment of swallowing function, rhinomanometry, surgical intervention (puncture	4161	2024-01-01
347	01 04 01 02	Otorhinolaryngologist when 2 or more of the following interventions are performed: endoscopic examination, microbiological examination, audiometry, acoustic impedance measurement, brainstem evoked response audiometry (BERA) test, visual evoked potential (VEP) test, otoacoustic emission (OAE) test, neuro-optometric assessment, videonystagmography, videolaryngostroboscopy, the acoustic analysis of the voice field, assessment of swallowing function, rhinomanometry, surgical intervention (puncture	4232	2024-01-01
348	01 04 01 02	Psychiatrist (when an initial psychological examination is carried out)	2723	2024-01-01
349	01 04 01 02	Pulmonologist when 1 of the following interventions is performed: bronchoscopy, echoscopic examination, puncture of the pleural cavity, microbiological examination, provocative bronchial reactivity test, spirometry, spiroergometry, assessment of lung volumes and capacities (plethysmography), assessment of gas exchange in the lungs, an arterial blood gas test, serological testing for the respiratory infectious agent(s)	2724	2024-01-01

350	01 04 01 02	Pulmonologist when 1 of the following interventions is performed: bronchoscopy, echoscopic examination, puncture of the pleural cavity, microbiological examination, provocative bronchial reactivity test, spirometry, spirometry, assessment of lung volumes and capacities (plethysmography), assessment of gas exchange in the lungs, an arterial blood gas test, serological testing for the respiratory infectious agent(s) (long-term follow-up)	3318	2024-01-01
351	01 04 01 02	Pulmonologist when 2 ore more of the following interventions are performed: bronchoscopy, echoscopic examination, puncture of the pleural cavity, microbiological examination, provocative bronchial reactivity test, spirometry, spirometry, assessment of lung volumes and capacities (plethysmography), assessment of gas exchange in the lungs, an arterial blood gas test, serological testing for the respiratory infectious agent(s)	4290	2024-01-01
352	01 04 01 02	Pulmonologist when 2 or more of the following interventions are performed: bronchoscopy, echoscopic examination, puncture of the pleural cavity, microbiological examination, provocative bronchial reactivity test, spirometry, spirometry, assessment of lung volumes and capacities (plethysmography), assessment of gas exchange in the lungs, an arterial blood gas test, serological testing for the respiratory infectious agent(s) (long-term follow-up)	4342	2024-01-01
353	01 04 01 02	Rheumatologist, when 1 of the following interventions is performed: puncture of the joint cavity, ultrasound of the musculoskeletal system, biopsy (skin and subcutaneous tissues, muscles, joint surfaces, minor salivary glands), electromyography, immunological laboratory testing, capillaroscopy, injection of medicinal product into the joint	2707	2024-01-01

354	01 04 01 02	Rheumatologist, when 1 of the following interventions is performed: puncture of the joint cavity, ultrasound of the musculoskeletal system, biopsy (skin and subcutaneous tissues, muscles, joint surfaces, minor salivary glands), electromyography, immunological laboratory testing, capillaroscopy, injection of medicinal product into the joint (long-term follow-up)	4389	2024-01-01
355	01 04 01 02	Rheumatologist, when 2 or more of the following interventions are performed: puncture of the joint cavity, ultrasound of the musculoskeletal system, biopsy (skin and subcutaneous tissues, muscles, joint surfaces, minor salivary glands), electromyography, immunological laboratory testing, capillaroscopy, injection of medicinal product into the joint	4162	2024-01-01
356	01 04 01 02	Rheumatologist, when 2 or more of the following interventions are performed: puncture of the joint cavity, ultrasound of the musculoskeletal system, biopsy (skin and subcutaneous tissues, muscles, joint surfaces, minor salivary glands), electromyography, immunological laboratory testing, capillaroscopy, injection of medicinal product into the joint (long-term follow-up)	4393	2024-01-01
357	01 04 01 02	Urologist when 1 of the following interventions is performed: echoscopic examination, endoscopic examination, microbiological examination, surgical intervention (destruction and/or dilation, and/or excision, and/or raffia, and/or resection, and/or drainage), and (or) incision, and (or) ligation), biopsy, determination of prostate-specific antigen levels in blood serum, uroflowmetry	2739	2024-01-01
358	01 04 01 02	Urologist when 1 of the following interventions is performed: echoscopic examination, endoscopic examination, microbiological examination, surgical intervention (destruction and/or dilation, and/or excision, and/or raffia, and/or resection, and/or drainage) , and (or) incision, and (or) ligation), biopsy, determination of prostate-specific antigen levels in blood serum, uroflowmetry (long-term follow-up)	3320	2024-01-01

359	01 04 01 02	Urologist, when 2 or more of the following interventions are performed: echoscopic examination, endoscopic examination, microbiological examination, surgical intervention (destruction and/or dilation, and/or excision, and/or raffia, and/or resection, and/or drainage) , and (or) incision, and (or) ligation), biopsy, determination of prostate-specific antigen levels in blood serum, uroflowmetry	4291	2024-01-01
360	01 04 01 02	Urologist, when 2 or more of the following interventions are performed: echoscopic examination, endoscopic examination, microbiological examination, surgical intervention (destruction and/or dilation, and/or excision, and/or raffia, and/or resection, and/or drainage) , and (or) incision, and (or) ligation), biopsy, determination of prostate-specific antigen levels in blood serum, uroflowmetry (long-term follow-up)	4343	2024-01-01
361	01 04 01 02	Pediatric surgeon when 1 of these interventions is performed: endoscopic examination, colonoscopy, echoscopic examination, surgical intervention (amputation and/or formation of a stump, and/or excision, and/or extirpation, and/or raffia, and/or resection, and/or drainage, and/or incision, and/or ligation), and/or puncture of pleural or joint cavity), biopsy, polypectomy, immobilisation using plaster/elastic bandage (long-term follow-up)	3652	2024-01-01
362	01 04 01 02	Pediatric surgeon when 1 of these interventions is performed: endoscopic examination, colonoscopy, echoscopic examination, surgical intervention (amputation and/or formation of a stump, and/or excision, and/or extirpation, and/or raffia, and/or resection, and/or drainage, and/or incision, and/or ligation), and/or puncture of pleural or joint cavity), biopsy, polypectomy, immobilisation using plaster/elastic bandage	2740	2024-01-01

363	01 04 01 02	Pediatric surgeon when 2 or more of these interventions are performed: endoscopic examination, colonoscopy, echoscopic examination, surgical intervention (amputation and/or formation of a stump, and/or excision, and/or extirpation, and/or raffia, and/or resection, and/or drainage, and/or incision, and/or ligation), and/or puncture of pleural or joint cavity), biopsy, polypectomy, immobilisation using plaster/elastic bandage	4295	2024-01-01
364	01 04 01 02	Pediatric endocrinologist, when 1 of the following interventions is performed: ultrasound examination of the thyroid gland, biopsy (puncture aspiration), hormone testing	2709	2024-01-01
365	01 04 01 02	Pediatric endocrinologist, when 1 of the following interventions is performed: ultrasound examination of the thyroid gland, biopsy (puncture aspiration), hormone testing (long-term follow-up)	3322	2024-01-01
366	01 04 01 02	Pediatric endocrinologist when 2 or more of the following interventions are performed: ultrasound examination of the thyroid gland, biopsy (puncture aspiration), hormone testing	4163	2024-01-01
367	01 04 01 02	Pediatric endocrinologist when 2 or more of the following interventions are performed: ultrasound examination of the thyroid gland, biopsy (puncture aspiration), hormone testing (long-term follow-up)	4233	2024-01-01
368	01 04 01 02	Pediatric gastroenterologist when 1 of the following interventions is performed: echoscopic examination, liver elastography examination, endoscopic examination, colonoscopy, biopsy, polypectomy, microbiological examination, hepatitis B virus DNA quantification (by PCR method)	2710	2024-01-01
369	01 04 01 02	Pediatric gastroenterologist, when 1 of the following interventions is performed: echoscopic examination, liver elastography examination, endoscopic examination, colonoscopy, biopsy, polypectomy, microbiological examination, hepatitis B virus DNA quantification (by PCR method) (long-term follow-up)	4391	2024-01-01

370	01 04 01 02	Pediatric gastroenterologist when 2 or more of these interventions are performed: echoscopic examination, liver elastography examination, endoscopic examination, colonoscopy, biopsy, polypectomy, microbiological examination, hepatitis B virus DNA quantification (by PCR method)	4164	2024-01-01
371	01 04 01 02	Pediatric gastroenterologist when 2 or more of these interventions are performed: echoscopic examination, liver elastography examination, endoscopic examination, colonoscopy, biopsy, polypectomy, microbiological examination, hepatitis B virus DNA quantification (by PCR method) (long-term follow-up)	4395	2024-01-01
372	01 04 01 02	Service provided by a pediatric infectious disease physician when a microbiological examination is performed	3661	2024-01-01
373	01 04 01 02	Pediatric cardiologist, when 1 of the following interventions is performed: cardiac ultrasound, veloergometry, transesophageal electrophysiological examination (stimulation), computer-aided analysis of Holter ECG, 24-hour ambulatory blood pressure monitoring	2712	2024-01-01
374	01 04 01 02	Pediatric cardiologist, when 1 of the following interventions is performed: cardiac ultrasound, veloergometry, transesophageal electrophysiological examination (stimulation), computer-aided analysis of Holter ECG, 24-hour ambulatory blood pressure monitoring (long-term follow-up)	3324	2024-01-01
375	01 04 01 02	Pediatric cardiologist when 2 or more of these interventions are performed: cardiac ultrasound, veloergometry, transesophageal electrophysiological examination (stimulation), computer-aided analysis of Holter ECG, 24-hour ambulatory blood pressure monitoring	4165	2024-01-01
376	01 04 01 02	Pediatric cardiologist when 2 or more of these interventions are performed: cardiac ultrasound, veloergometry, transesophageal electrophysiological examination (stimulation), computer-aided analysis of Holter ECG, 24-hour ambulatory blood pressure monitoring (long-term follow-up)	4234	2024-01-01

377	01 04 01 02	Pediatrician when 1 of the following interventions is performed: echoscopic examination, hormone testing, microbiological examination, measurement of a therapeutic drug concentration	2726	2024-01-01
378	01 04 01 02	Pediatrician when 1 of the following interventions is performed: echoscopic examination, hormone testing, microbiological examination, measurement of a therapeutic drug concentration (long-term follow-up)	3326	2024-01-01
379	01 04 01 02	Pediatrician when 2 or more of these interventions are performed: echoscopic examination, hormone testing, microbiological examination, measurement of a therapeutic drug concentration	4296	2024-01-01
380	01 04 01 02	Pediatrician when 2 or more of these interventions are performed: echoscopic examination, hormone testing, microbiological examination, measurement of a therapeutic drug concentration (long-term follow-up)	4344	2024-01-01
381	01 04 01 02	Pediatric neurologist when performing 1 of the following interventions: electroencephalogram, ultrasound scan of the arteries in the neck, neurosonography, electroneuromyography, transcranial doppler (TCD) ultrasound, transcranial color-coded sonography (TCCS), brainstem evoked response audiometry (BERA) test, a visual evoked potential (VEP) test, a motor evoked potential (MSP) test, a somatosensory evoked potential (SSP) test	2714	2024-01-01
382	01 04 01 02	Pediatric neurologist when performing 1 of the following interventions: electroencephalogram, ultrasound scan of the arteries in the neck, neurosonography, electroneuromyography, transcranial doppler (TCD) ultrasound, transcranial color-coded sonography (TCCS), brainstem evoked response audiometry (BERA) test, a visual evoked potential (VEP) test, a motor evoked potential (MSP) test, a somatosensory evoked potential (SSP) test (long-term follow-up)	3328	2024-01-01

383	01 04 01 02	Pediatric neurologist when 2 or more of the following interventions are performed: electroencephalogram, ultrasound scan of the arteries in the neck, neurosonography, electroneuromyography, transcranial doppler (TCD) ultrasound, transcranial color-coded sonography (TCCS), brainstem evoked response audiometry (BERA) test, a visual evoked potential (VEP) test, a motor evoked potential (MSP) test, a somatosensory evoked potential (SSP) test	4166	2024-01-01
384	01 04 01 02	Pediatric neurologist when 2 or more of the following interventions are performed: electroencephalogram, ultrasound scan of the arteries in the neck, neurosonography, electroneuromyography, transcranial doppler (TCD) ultrasound, transcranial color-coded sonography (TCCS), brainstem evoked response audiometry (BERA) test, a visual evoked potential (VEP) test, a motor evoked potential (MSP) test, a somatosensory evoked potential (SSP) test (long-term follow-up)	4235	2024-01-01
385	01 04 01 02	Pediatric ophthalmologist when 1 of the following interventions is performed: surgical intervention (excision and/or raffia, and/or resection, and/or drainage, and/or incision, and/or foreign body removal), biopsy, an ultrasound examination of the eye, computerized perimetry, determination of refraction using cycloplegia and selection of eyeglasses, an optical coherence tomography scan, an electroretinography test	2741	2024-01-01
386	01 04 01 02	Pediatric ophthalmologist when 2 or more of these interventions are performed: surgical intervention (excision and/or raffia, and/or resection, and/or drainage, and/or incision, and/or foreign body removal), biopsy, an ultrasound examination of the eye, computerized perimetry, determination of refraction using cycloplegia and selection of eyeglasses, an optical coherence tomography scan, an electroretinography test	4167	2024-01-01

387	01 04 01 02	Pediatric orthopaedic traumatologist, when 1 of the following interventions is performed: surgical intervention (amputation and/or formation of a stump, and/or excision, and/or extirpation, and/or raffia, and/or resection, and/or drainage , and (or) aspiration, and (or) incision, and (or) joint puncture), biopsy, immobilisation using a plaster / elastic bandage, removal of a foreign body, wound caused by an external fixation device dressings, injection of a therapeutic drug into the soft tissue or into the joint	2742	2024-01-01
388	01 04 01 02	Pediatric orthopaedic traumatologist when 2 or more of these interventions are performed: surgical intervention (amputation and/or formation of a stump, and/or excision, and/or extirpation, and/or raffia, and/or resection, and/or drainage , and (or) aspiration, and (or) incision, and (or) joint puncture), biopsy, immobilisation using a plaster / elastic bandage, removal of a foreign body, wound caused by an external fixation device dressings, injection of a therapeutic drug into the soft tissue	4168	2024-01-01
389	01 04 01 02	Pediatric pulmonologist when 1 of the following interventions is performed: bronchoscopy, puncture of the pleural cavity, microbiological examination, provocative bronchial reactivity test, spirometry with bronchodilator response, serological testing for the respiratory infectious agent(s)	2715	2024-01-01
390	01 04 01 02	Pediatric pulmonologist when 1 of the following interventions is performed: bronchoscopy, puncture of the pleural cavity, microbiological examination, provocative bronchial reactivity test, spirometry with bronchodilator response, serological testing for the respiratory infectious agent(s) (long-term follow-up)	3330	2024-01-01
391	01 04 01 02	Pediatric pulmonologist when 2 or more of these interventions are performed: bronchoscopy, puncture of the pleural cavity, microbiological examination, provocative bronchial reactivity test, spirometry with bronchodilator response, serological testing for the respiratory infectious agent(s)	4298	2024-01-01

392	01 04 01 02	Pediatric pulmonologist when 2 or more of these interventions are performed: bronchoscopy, puncture of the pleural cavity, microbiological examination, provocative bronchial reactivity test, spirometry with bronchodilator response, serological testing for the respiratory infectious agent(s) (long-term follow-up)	4346	2024-01-01
393	01 04 01 02	By an internal medicine physician, when 1 of the following interventions is performed: microbiological examination, echoscopic examination, hormone testing	2728	2024-01-01
394	01 04 01 02	Internal medicine physician, when 2 or more of the following interventions are performed: microbiological examination, echoscopic examination, hormone testing	4293	2024-01-01
395	01 04 02	For day inpatient services (level 2)
